DISCOUNTS

Occasionally we may offer sale pricing or bundle pricing on some or all of our products. Such offerings and their duration will be announced on our home page and will reference a promotional code to enter where indicated on our order form. Orders that do not reference a valid promotional code are *not* eligible to take a discount.

Visit our website:

for sale announcements and further instructions.

Educational Discounts:
We will run an ongoing 10% discount for students or educators who wish to purchase our products for educational purposes. Use promotional code **EDUCATE** where indicated on the orderform. Note: you will have to provide proof of your eligibility to take this discount with your order (i.e. a copy of a current student ID card, or an order placed directly from an educational institution). This discount applies only to product pricing; full shipping charges still apply. Furthermore, this discount may not be applied to any other discount we may offer.
Enter the educational discount on the orderform as a discounted price for each line item in the **Cost Ea.** column. Calculate new price as: (cost ea.) x (0.90) then fill out the rest of the form as usual.

Prices subject to change without notice.
